PROJECTS

May,2019-Jul,2019

Web App – ArgonLabs
ABOUT: It does booking of Medicine Online and people can also book appointment for whatever the people want to get tested like blood pressure etc. And the report will show online.
Skills used: Html, CSS, Bootstrap, Php, JavaScript, jQuery.

Jul,2020-Sep,2020

Desktop Voice Assistant:
About: Using this application one can search for any query which will be searched on Wikipedia, also we can Open other applications such as Google and YouTube; we can also do mathematical operations by just giving voice commands which is a very user-friendly task. In this project I have used Google Speech Reorganization A.P.I and for calculations Wolfram Alpha A.P.I has been used.
Skill Used: Python
